Submitting a Trade

10 Ways to Submit a Trade

1. Double-click on a counter to open a new Trade Ticket or click once if Trade Ticket is opened and linked

2. Right-Click on counter and click Trade

3. Drag any counter from Price View/Instrument Explorer into an open Trade Ticket.

4. Search for any counter with the search bar on the Trade Ticket to bring up the counter details

The screenshot shows the 'Price View' window with a list of instruments. A context menu is open over the 'G13' instrument, showing options like 'Trade SGX', 'Open Chart SGX', 'Set Price Alert', 'Time And Sales', 'Trade Summary', 'Stock Analytics', 'Market Depth', 'Add To Watchlist', and 'Remove From Watchlist'.

	SYMBOL	NAME	LAST	CHG	%CHG	EXCHANGE	BVOL(K)	BID	ASK	SVOL

HOW TO TRADE

Trade Ticket | Submitting a Trade | **Order Types** | Order Status | Trade Settings

ORDER TYPE	DEFINITION	EXCHANGES
Limit	A limit order is an order given by the client specifying a maximum buying price or minimum selling price, beyond which the order will not be executed. A limit buy order may be filled at the limit price or lower and a limit sell may be filled at the limit price or higher than the limit. (Day/GTD)	ALL Exchanges <i>GTD currently for SGX only</i>
Stop Limit	A Stop-Limit Order combines the features of a stop order and a limit order. It requires a Trigger Price and a Limit Price to be specified. When the market price reaches the Trigger, the order becomes a limit order that will be executed at the Limit Price specified (or better). (Day/GTD)	SGX / HKEx / NYSE / NYSE MKT / NASDAQ <i>GTD currently for SGX only</i>
Limit-If-Touch	It is an order to buy (or sell) a contract at a specified price or better, below (or above) the market. This order is held in the system until the trigger price is touched. An LIT order is similar to a Stop Limit order, except that an LIT sell order is placed above the current market price, and a Stop Limit sell order is placed below.	SGX / HKEx / NYSE / NYSE MKT / NASDAQ
OCO (One Cancels Other)	It is an order that allows submission of 2 orders simultaneously to either take profit or cut loss. If one part of the order is executed, the other is automatically cancelled.	SGX / HKEx / NYSE / NYSE MKT / NASDAQ
IF-Done	It is an order that is structured of two or more steps that must occur in a specified sequence. Only after the first step in the sequence is completed, then will the second step be activated.	ALL Exchanges

Note on Synthetic Orders

Stop Limit / Limit-If-Touch Order – Day (Synthetic)

A Stop Limit / Limit-If-Touch Order (Day) submitted on POEMS Mercury for HKEx / NYSE / NYSE MKT / NASDAQ are synthetic orders monitored and held on synthetic servers rather than Exchange servers. These orders mimic the native order types and are released to respective exchanges only when all trigger conditions are met. Stop-Limit Order - Day will only be triggered during market trading hours of that day only.

General Risk/Terms and Conditions on using synthetic orders

Synthetic orders may not be effectively executed in certain market conditions or due to hardware or software failure, breakdown or other malfunction, including, without limitation, errors in computer programs and telecommunication systems. During incidents, there may be possibilities of non-execution, delayed orders and error in price triggers. Therefore, synthetic orders are not guaranteed to be executed. Neither Phillip Securities Pte. Ltd. nor its subsidiaries/ associates/related companies nor any of its agents will be liable for any direct, indirect, special or consequential damages which may be suffered by users, but not limited to, loss of anticipated profits or other anticipated economic benefits whatsoever or howsoever caused, as a result of the execution or non-execution of the synthetic orders. Users will be deemed to accept and agree to the Terms and Conditions above when you commence usage of synthetic orders.

*For all **Stop Limit**, **Limit-If-Touch** and **IF-Done** orders, clients are to ensure that their trading accounts have sufficient buying or selling trading limits to allow orders to be submitted when the order's triggering conditions are met, else order triggered may be rejected due to insufficient trading limit.

- Font size** - Set default font size: Normal, Medium or Large
- Columns list** - Set default column arrangement and attributes

HOW TO TRADE

Trade Ticket | Submitting a Trade | OB Trader | Order Types | Order Status | Trade Settings

Trade Settings

Trade Settings can be found under Settings at the top-right corner of the application

A screenshot of the 'Settings' window, specifically the 'Trading Limit' tab. The window has a sidebar on the left with options: 'Trade', 'Order Status', 'Watchlist', 'Alert', and 'Display'. The main area is titled 'Trading Limit' and contains a table with the following settings:

	Equities
Enable Trading	YES
Trade Ticket Price Input Display	YES
Max Buy Qty	5000
Max Sell Qty	5000
Default Settlement Currency	SGD
Default Days For GTD	1
Default Qty For SGX	1

Below the table, there is a field 'Enter password to confirm changes*' and three buttons: 'Reset to Defaults', 'Apply', and 'Cancel'. A red note at the bottom states: '*Trading Limit settings on Mercury do not affect POEMS RMS settings.'

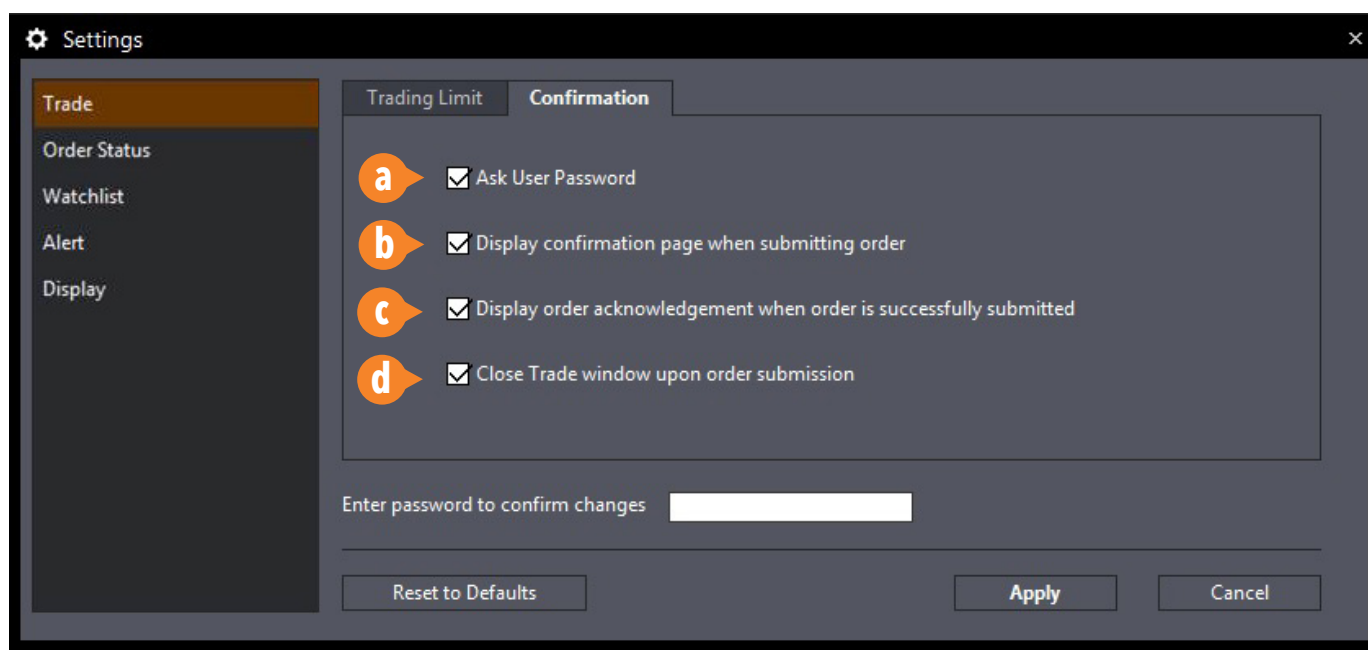

Trading Limit Settings

Settings	Default	Meaning
Enable Trading	Yes	If Changed to "no", a popup window will pop when user click submit in the trade ticket. The message will say "Trading is disabled, please enable it in setting."
Trade Ticket Price Input display	Yes	If Changed to "no", the shares and Limit price on the trade ticket will not display. User can choose to key in the price.
Max Buy Qty	1,000,000	Maximum of shares allowed on the Buy trade ticket.
Max Sell Qty	1,000,000	Maximum of shares allowed on the Sell trade ticket.
Default Settlement Currency	SGD	The chosen settlement currency in the trade ticket will be populated in the trade ticket.
Default Days for GTD	5	The number of days for GTD.
Default Qty for SGX, KLSE, NASD, NYSE, AMEX, SEHK, SSE, SET	1	This is the default display quantity for the exchange. Please choose exchange from dropdown. If quantity is less than minimum lot size of the counter, the minimum lot size will show.

HOW TO TRADE

Trade Ticket | Submitting a Trade | Order Types | Order Status | **Trade Settings**

Trade Settings (Confirmation)

Confirmation Settings

- a.** When **unchecked**, no password input order confirmation would be required
- b.** When **unchecked**, no confirmation page will be displayed after order submission
- c.** When **unchecked**, no order acknowledgement will be displayed when order is submitted successfully
- d.** When **unchecked**, Trade Ticket window will remain open after order submission

HOW TO CUSTOMISE THE PLATFORM

Workspaces and Tabs | Windows and Multi-Screen | Settings | Themes and Languages

Workspaces and Tabs

Workspace

A workspace is a collection of tabs. You can use the preset workspaces, modify them or create your own. In a workspace, you are not limited by the number of tabs you want.

a. Selecting a Workspace

- Click on the workspace dropdown (see top left corner of the platform)
- Click on a preset workspace name or any previously added custom workspaces

b. Creating a New Workspace

- Click on the Workspace dropdown
- Click on > Add New. The dropdown will change into a text field
- Type in the name of your new workspace and press Enter

c. Saving/Duplicating/Renaming/Removing a Custom Workspace

- Select and load a custom workspace
- Click on the corresponding action item on the list (after the workspace names)

Tab

A tab is a container of windows. When you add a new tab, it is initially empty. You can then place and arrange as many windows inside a tab. Tabs can be added, deleted, renamed or rearranged.

Double/right-click to rename, right-click to delete watchlist or click on X

To add a new tab, click here

Adding a Tab

- Click on the + button found after the last tab

Removing a Tab

- Click on the x button found in the tab header

Rearranging Tabs

- Hold click and drag the tab header to the left or right

HOW TO CUSTOMISE THE PLATFORM

Workspaces and Tabs | **Windows and Multi-Screen** | Settings | Themes and Languages

Windows and Multi-Screen

Window

A window is any one of the modules that you can find in the Main Navigation Toolbar, each with specific functions and properties. Some windows can only be added once per tab, others can have several copies.

Adding a window inside a tab

- Click on your preferred tab
- Click on your preferred window from the Main Navigation Toolbar

Rearranging windows

- Hold click and drag the window header part and place drop anywhere the tab container space. Windows can overlap one another

Removing a Window

- Click on the x button found in the window header top-right corner

Multi-Screen Support

To fully utilise the capabilities of POEMS Mercury, we would recommend using the platform with 3 additional screens.

Detaching Individual Windows

Click to detach window and drag out of the application or/and into another screen

Linking Individual Windows

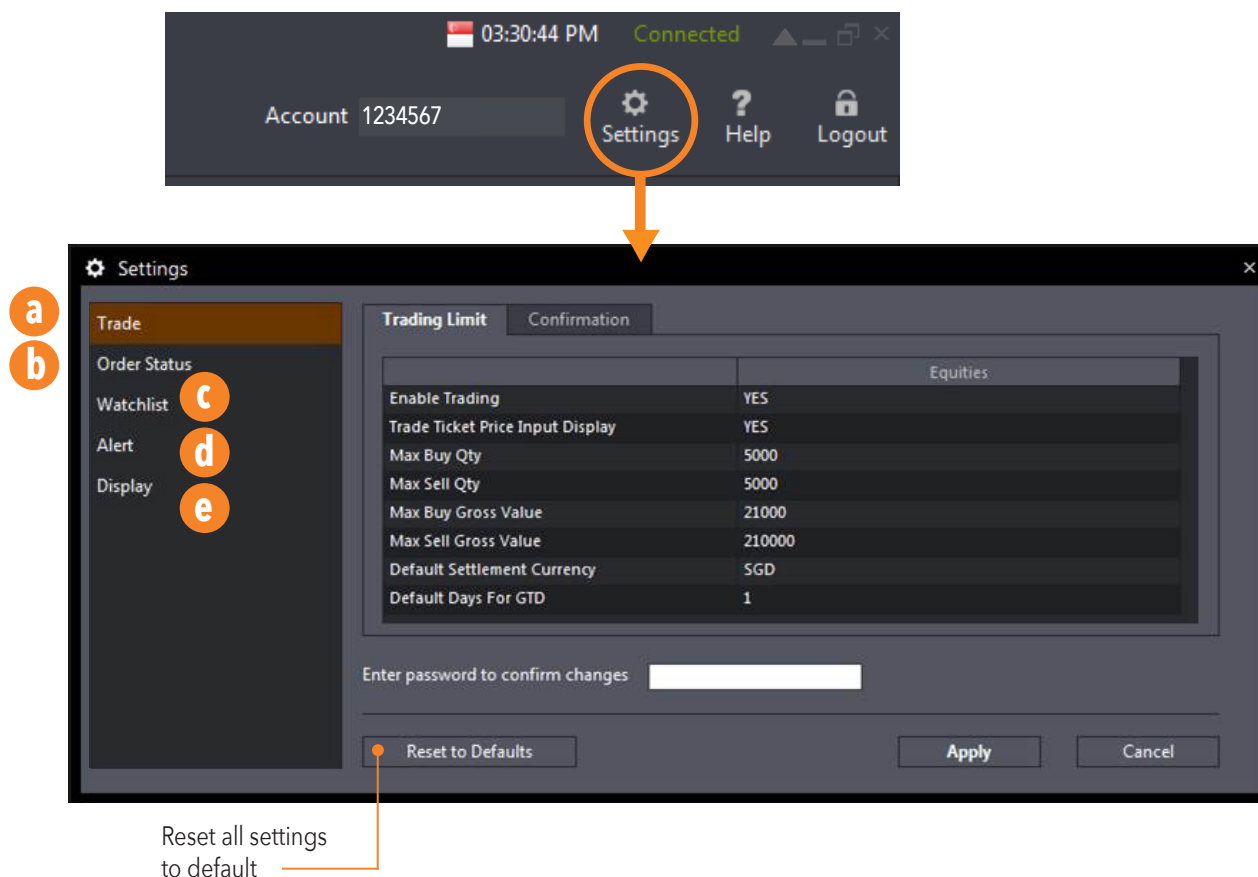

Click to link windows to Price View or your Watchlist. All linked windows will show the same counter details with just one click on the counter

HOW TO CUSTOMISE THE PLATFORM

Workspaces and Tabs | Windows and Multi-Screen | **Settings** | Themes and Languages

Settings

POEMS Mercury allows you to modify particular window settings and functionality to empower your trading

a. Trade Settings

See [How To Trade > Trade Settings](#) to know more information about what each item means

b. Order Status Settings

See [How To Trade > Order Status](#) to know more information about what each item means

c. Watchlist Settings

See [How To Monitor the Market > Watchlist](#) to know more information about what each item means

d. Alert Settings

See [How To Monitor the Market > Alert](#) to know more information about what each item means

e. Display Settings

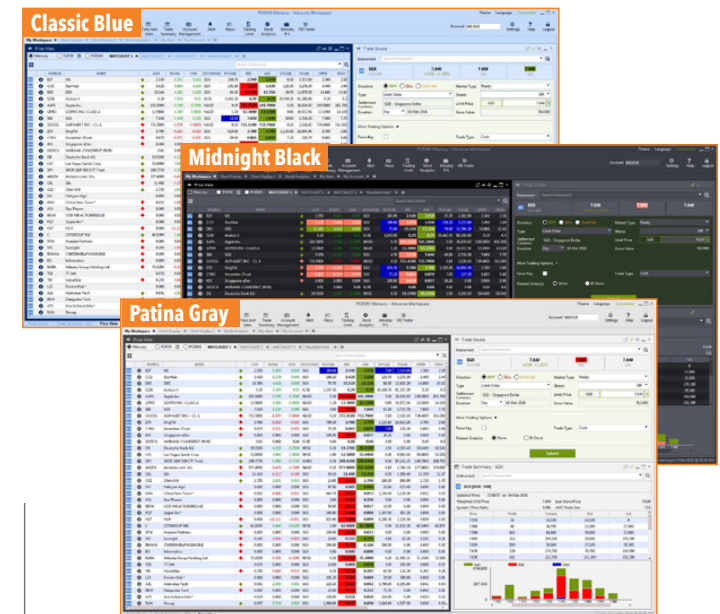

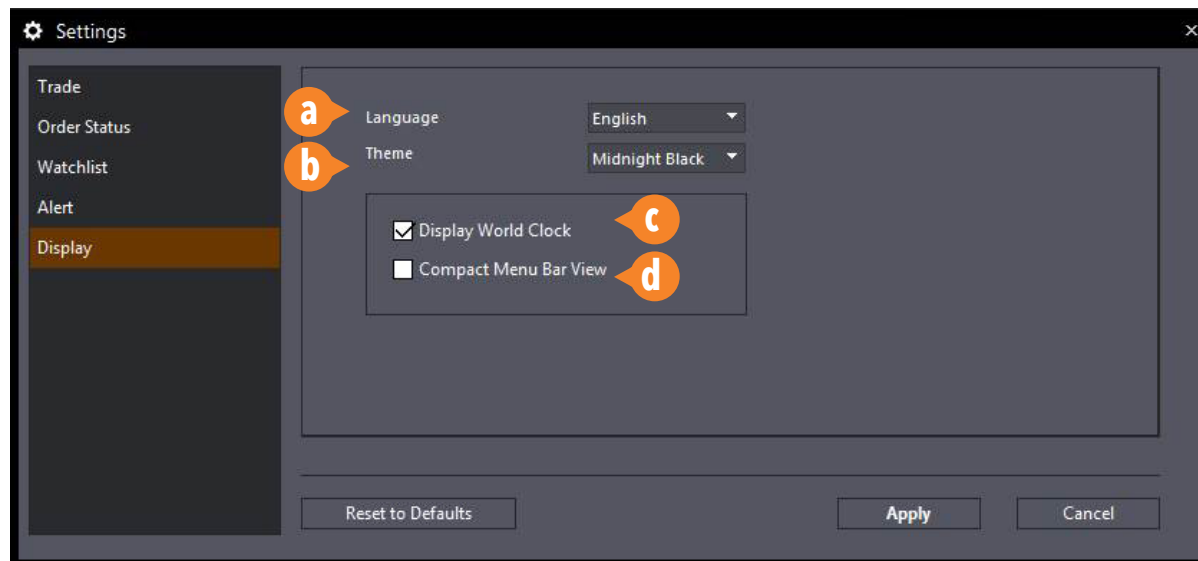

See [Themes and Languages](#) to know more information about what each item means

HOW TO CUSTOMISE THE PLATFORM

Workspaces and Tabs | Windows and Multi-Screen | Settings | Themes and Languages

Themes and Languages

Further customize the platform according to your personal preferences with Themes and Languages

Display Settings

- a. Choose preferred language
- b. Select from 3 different themes, **Midnight Black**, **Classic Blue** and **Patina Gray**
- c. Choose to display World Clock at the top menu bar
- d. Choose to hide main navigation menu icons
